

Trustee Report

To: Board of Trustees

From: Trustee Randy Lee

Date: November 14, 2013

PROSAB: Did not meet in October; the next meeting will be this coming Thursday, November the 14th. On the agenda will be new member orientation, and a discussion of PROSAB goals for 2014. A joint BOT/PROSAB workshop is scheduled for December 10th.

IMA: The IMA met November 14th at the NFPD firehouse (all meetings will be held in Nederland until road repair makes meeting in other communities feasible). Flood recovery continues to dominate IMA discussions, with updates from the County, FEMA, the Red Cross and Foothills United Way on resources available for flood victims. The county has formed a long term flood recovery group. A number of IMA members already sit on some of the various subcommittees, but the IMA requested a more general seat at this table to ensure that mountain residents' needs are being addressed. Representatives from neighborhood groups in the unincorporated parts of the County are beginning to attend. The Mountain Emergency Radio Network (MERN) provided critical communications in the Allenspark area during the flood; Nederland-area residents interested in attending the next ham radio operator training (probably in February) should contact me. The next IMA meeting will be held at the Nederland Community Center on December 12th.
