

MEMORANDUM

To: Nederland Board of Trustees
From: Chief Jake Adler
Date: 7/10/13
Re: Staff Report – Police Department

As we enter July, we are engaged in several projects and transition.

Our first annual “Shred-a-thon” is ready to go. We have had some amazing input and encouragement from the community for this event. As identity theft continues to be a major issue, we hope to encourage and offer solutions and ideas on how citizens can protect themselves and their family, during this event.

We have completed interviews and have selected a candidate for the part-time officer position. Pending the results of the required exams, I will formally announce his position in the near future.

We continue to make every effort to keep transients and their issues out of town. As stated before, this has been the most taxing year for our department in this ongoing concern. We continue to encourage all residents to be vocal and report problems in a timely manner.

All Nederland officers completed an intense and thorough firearms and rifle qualification this past week. We are scheduled as a department to participate in the Boulder County/Gilpin County active shooter training on Wednesday, July 24. This all day training will include multiple agencies for emergent and tactical response training in scenarios for critical incidents.

As we look to the future, we are working on operational plans for Ned Fest and related events. This past Fourth of July went very well and we encountered few issues.

I am available to each and all of you at anytime.
