

Trustee Report

To: Board of Trustees

From: Trustee Randy Lee

Date: December 12, 2012

PROST Master Plan update process: Input was received from all advisory boards in November on the first draft of the updated master plan. Alisha and I submitted consolidated comments to GreenPlay, and they are revising the plan accordingly. A second draft is expected soon and will be reviewed by PROSAB and the Planning Commission. We hope to have a final plan for BOT consideration in January.

PROSAB: There is an opening on the board occasioned by the resignation of Ben Dereume who moved out of state. PROSAB devoted two meetings to review of the master plan and the December meeting may focus on this as well, if the second draft is ready. Coming up, we will continue discussion of standardization of Town parks and trails fixtures, begin a process to update the trails master plan and conduct our yearly self-evaluation.

IMA: The Intermountain Alliance met in Ward on November 28. A Mountain Emergency Radio Network (MERN) training session was held December 1 in Jamestown. Next IMA meeting will be January 16 at 10:00 AM in the Nederland Community Center.

Big Springs Emergency Egress: A meeting with Boulder County and the Forest Service to discuss the status of Nederland's proposal for an emergency egress route to Magnolia Road crossing FS and BoCo open space property is scheduled for Friday, December 14 at the FS offices in Boulder. We expect to receive initial feedback on our proposal and a clear assessment of any obstacles that stand in the way of implementation.
