

CO119 TRAFFIC ADVISORY

5-10 Minute Delays Expected Week of April 7

Monday, April 8 through Friday, April 12, sections of travel lanes on State Highway 119 - Boulder Canyon will have single lane closures. There will be up to 2 of these single lane closures set up throughout the Canyon concurrently.

Between MP 30-33, work on several drainage culverts along the highway will continue throughout the week. The locations of the culvert crews will change throughout the day. Motorist will be guided around the single lane closure with traffic control flaggers.

The single lane closures are planned for 7 a.m. to 5 p.m. Speed limits are reduced to 25 miles per hour in the construction zones. The work is weather dependent and the schedule may change.

Beginning on Tuesday, April 9, a temporary traffic signal will be installed to manage traffic between MP 39 – 40. This traffic signal will be in place 7-days a week, 24-hours a day. Please see the attached map for reference.

5-10 minute delays are expected through the canyon during commute hours. Please plan additional time to travel through the construction zones.

An Update on Full Closures

Blasting operations will begin the week of April 15 near MP 40. The project team has identified preliminary rocks to be knocked down. The highway closure schedule will be shared next week. The 2-hour full closures of the highway for rock blasting will continue the following week, with the first detonations scheduled for the week of April 22.
